

# Profiling and Vertical Lifting frame

---

This lifting mechanism can be inserted into any of our adjustable bed surrounds. It is especially good if the person has carers and needs to be turned in bed at a comfortable height but also to help the person stand up out of bed whilst sitting on the edge of the bed as it raises them to a standing position like a riser chair.

## Description

---

- 5 part adjustable profiling with integral raise and lower facility
- 4 motors (2 for profiling and 2 for lift)
- Vertical rise up to 14 inches from starting point
- Twin On-Line fittings
- Weight adjuster zone
- Centre belt
- Load bearing points bolted and sleeved

Prices (inc. delivery & set up by trained engineers).  
Add £795 to the cost of any of our beds on the home page.
